

Application Guidelines for the 2024 Ehime University Biological Science Award

◎ What is the “Ehime University Biological Science Award”?

This is an award established in 2019 based on a donation by Professor Emeritus Satoru Suzuki to the “Ehime University Young Researcher Fund”. Professor Emeritus Satoru Suzuki made the donation to encourage young researchers conducting creative research in the field of biological science and its related areas.

1 Objective

To commend and encourage young researchers who can be expected to be active internationally in the field of biological science and its related areas.

2 Target

Individuals, below the age of 40 on March 31, 2025, who are currently engaged in research in a broad range of bioscience-related fields and who fall under any of the following, and who show promise as a researcher in the future.

- (1) Those who are in the doctoral program at Ehime University (In the case of a two-year (master's) and three-year (doctoral) system, only those in the doctoral program are eligible.)
- (2) Those who are employed (full-time or part-time) by Ehime University
- (3) Those who graduated from Ehime University and are currently employed by an institution other than Ehime University

3 Number of awardees

2~3
